MediLink Announces Hiring of Director of Hemophilia Services

Hammonton, NJ MediLink Homecare, Inc., is pleased to announce the appointment of Bill Jamison as Director of Hemophilia Services. Bill brings over 18 years experience in the Hemophilia Specialty Pharmacy business with a focus of serving the unique needs of the Bleeding Disorders Community. He has held various high level positions in sales, marketing, operations and advocacy throughout his long career.

Bill, a severe factor VIII hemophiliac, has a personal understanding of the struggles of the individual living with a bleeding disorder along with the impact it has on the entire family. Well known within the Bleeding Disorders Community, Bill has been a keynote speaker at numerous hemophilia related events on the topics of healthcare delivery, insurance issues, advocacy, comparative effectiveness and many other subjects related to the dynamics of hemophilia and the specialty pharmacy market in general.

With Bill's knowledge and personal expertise, MediLink is looking forward to providing outstanding customer service to meet the challenges of serving this very deserving community by partnering with the patient, family, physician, community and all those who are part of their care.

"We are thrilled to have Bill join our MediLink team to make a positive difference in the day to day challenge of living with hemophilia. Our clinicians, pharmacists and nurses, are committed to individualized care and with Bill's leadership we will provide superior service to the hemophilia community" states Sandy Tzaferos, PharmD, President of MediLink Homecare, Inc.
